Spring

Deadline: March 3, 2021

Summer

Deadline: TBD

Housing

Cascadia does not offer on-campus housing. Room and board estimate is based on standard market rates in the area.

Student Life, Recreation, Resources

The Activities and Recreation Center (ARC) at Cascadia College and UW Bothell offers a fitness center, food trucks, a game room, meeting and event spaces, and student resources.

The Health & Wellness Resource Center (HaWRC), located in the ARC, is a one-stop hub connecting students with on-campus and community resources to help them thrive. In partnership with the United Way Benefits Hub, the center provides resource connections, financial coaching, and public benefits enrollment.

The Kodiak Cave is an emergency food resource center located on campus that directly serves the student body of Cascadia College. Kodiak Cave's mission is to end hunger on our campus by providing nourishing meals, education and resources to our community. It currently operates as a "choice pantry", meaning guests will be able to pick the food that best meets their needs. This gives guests dignity and reduces food waste. Beginning March 2020, Kodiak Cave opened for curbside pick-up and weekly deliveries.

New Degrees & Programs

Cascadia offers a Bachelors of Applied Science in Mobile Applications. Learn the skills necessary to land jobs such as application developers, front end developers, and software developers, where the median entry-level salary is \$69,000. Cascadia offers the only BAS degree in the state with a focus on mobile application development.

Homeland Security AAS-T is a mix of in-person and online courses designed to prepare the next generation of emergency management and policy leaders with the knowledge and skills they need to improve outcomes in disasters of all types.

New Buildings

The West Garage will add 600 parking spaces on campus and open Fall Quarter 2020.

STEM 4, a joint venture with UW Bothell, was funded by the legislature during the 2018-19 session, and currently in the design phase. It will house classrooms, labs, study spaces, and faculty offices for both institutions.
